The future leaders of today are always looking for better ways to continue their personal and professional growth. It is the one consistent component and characteristic of all successful leaders – a perception that one must continually grow to survive and succeed. CEOs and executives have always had the resources and assistance to continue their focus and build on their current success. So there are many of you that ask, "If they use those resources, then why can't I do the same? This is where we come in.

For those ready to move ahead in their career, we have created **CAREERadvancement** Mastermind Groups. The concept of the Mastermind Group was formally introduced by Napoleon Hill in the early 1900's. In his timeless classic, *"Think And Grow Rich"* he wrote about the Mastermind principle as: "The coordination of knowledge and effort of two or more people, who work toward a definite purpose, in the spirit of harmony." Great success is only achieved as the result of great teamwork. Team is an acronym that means Together Everyone Achieves More. Your greatness lies in your ability to attract to yourself a great team.

The beauty of Mastermind Groups is that participants raise the bar by challenging each other to create and implement goals, brainstorm ideas, and support each other with total honesty, respect and compassion. Mastermind participants act as catalysts for growth, devil's advocates and supportive colleagues.
